Udumalpet, India 642126 | +91 93454 53725 | anirudhmounasamy@gmail.com

## SUMMARY

Results-driven **Azure Cloud Engineer turned Full Stack Developer**, with a strong foundation in cloud infrastructure, web development, and scalable system design. Experienced in building and deploying modern web applications using **React, Next.js, Node.js, MongoDB, and PostgreSQL**, with a deep understanding of **data structures, algorithms, and system architecture**. Adept at bridging the gap between cloud engineering and software development to deliver robust, high-performance, and secure solutions. Passionate about end-to-end product development, optimizing performance, and implementing best practices in both front-end and back-end engineering.

## SKILLS

- Full stack development
- Web technologies
- JavaScript and TypeScript
- React and Next.js
- Node.js
- Version control with Git
- System design
- Database management (MongoDB, PostgreSQL, MySQL)

## EXPERIENCE

05/2022 - 02/2024

### Azure Developer

**Qube Space LLP** - Coimbatore, India

- Designed scalable, reliable distributed system solutions to support business growth
- Created and managed virtual machines on Azure cloud platform to enhance operational efficiency.
- Optimized costs for organizations leveraging Azure services to maximize resource allocation.
- Implemented data pipelines that streamlined dashboard development and SSRS reporting processes.
- Managed Azure accounts and enforced role-based access control for organizational users.

## EDUCATION AND TRAINING

Expected in 06/2026

### Bachelor of Science: Mathematics

**Barathiyar University** - Coimbatore
